

Green
is nothing
new to us...

For more than two decades, Chem-Dry, the world's largest carpet and upholstery cleaning company, has been cleaning with a proprietary method that uses approximately one-fifth the water of typical steam cleaners. Using a carbonating solution that is safe & non-toxic, our process is copied from Mother Nature to refresh and deep clean your home's carpets without harsh chemicals.

The Greener Carpet Cleaner

All of the ingredients in The Natural®, our proprietary cleaning solution, are on the FDA's G.R.A.S.* list. You would not add soaps, detergents, phosphates or other harsh chemicals to our air, lakes, streams or forests; so why add them to your carpet?

Our dedication to being green is more than just words. In fact, we use one-fifth the amount of water during our cleaning process compared to typical steam cleaners. And, our proprietary extraction equipment allows carpets to dry in 1-2 hours, not 1-2 days. Less water in your carpets means a healthier home for your family and leaves more water in our reservoirs.

GREEN CERTIFIED

The requirements to become Green Certified consist of numerous tests that are conducted by an independent organization to measure the degree a substance is harmful.

These tests evaluate the product's impacts against Oral Toxicity, Dermal Toxicity, Aquatic Toxicity and Air Quality.

Chem-Dry's proprietary Hot Carbonating Extraction (HCE) cleaning process provides a deeper, longer lasting clean for a healthier home.

Chem-Dry's Green Certified Products

Several products meet the strict standards of the Chem-Dry Green Certified program, which examines a product's impact on people, pets and the environment. The following products have met the qualifications to be classified as Green Certified:

- The Natural
- PowerGuard Protectant
- Traffic Lane Pre-Spray
- Stain Extinguisher
- World Famous Spot Remover
- Final Rinse
- Upholstery Wet/Foam Cleaner
- P.U.R.T. Liquid
- Carpet Deodorizers
- Dust Mite Anti-Allergen
- Pet Odor Remover
